64 keys (88 presets using Mode key)

Memory Capacity:

256K, 2000 PLUs (30 characters per PLU)

Classification:

NTEP CC 00-107, UL listed

Warranty:

One-year limited warranty

Ishida Astra

Price Computing Scale/Printer

The Ishida Astra exhibits a combination of performance and price unmatched by any scale in its class. It allows operators to create a variety of eye-catching point-of-purchase labels up to 64 mm wide and 85 mm long at an industry-leading 80 mm per second. In addition, its ergonomic design successfully delivers customer convenience. The Astra's simple side label loading feature, easy-to-read displays and intuitive keyboard design allow operators to deliver fast, friendly customer service.

The Astra's performance is enhanced by innovative features. Setup time is reduced with the help of unique, easy-to-use software tools called AstraLink and AstraLabel. AstraLink allows PLUs, messages and presets to be programmed from a PC. It conveniently allows operators to generate preset key sheets from their own printer. AstraLabel allows simple label formatting. The Astra also offers a proportional tare feature that can be programmed per PLU or entered through the keyboard. What's more, operators can use the cloning feature to transfer some or all of the scale memory from one Astra directly to another.

From meat departments to delis, seafood to specialty shops, the Astra retail scale printer is the leader in form, function and value.

Standard Features

- Programmable function keys
- Store up to 2,000 PLUs
- Print speed of 3.15 in (80 mm) per second
- Convenient side-loading label feature
- RS-232 communications (for AstraLink)
